BEND AIRPORT LONG RANGE PLANNING

- FAA required Master Plan - proposed adoption in 2020
- Required Environmental Assessment – expected completion 2021
- Would like to consider Annexation and/or future Deschutes County Comprehensive Plan designations/Airport Overlay
- Why? Why now?
 - Initial forecast shows need to extend existing runway and build a second runway
 - Current FAA concerns about safety leading to control tower construction
 - Future Aviation, Industrial and Commercial development
 - Interest to protect adjacent residential land today and in the future
 - Long term financial stability for Airport

- Create a Joint Work Group
 - Two elected officials
 - Legal staff from both jurisdictions
 - High level planning staff from both jurisdictions
- Explore land use options
- Evaluate risks and benefits of each option
- Come back at next Joint Meeting with a recommendation
