To whom it may concern,

My name is Mackenzie Bussard and I am a life long Bend resident. I am writing today regarding the moon pit site.

The proposed solid waste facility located at the moon pit site I believe proposes serious threat to ancient Native American archeology within the area. These sites are not marked on local maps due to risk of vandalism but nonetheless should be protected. I would be happy to show the commissioners if requested the location of the site.

I am unable to attend this hearing but it's of major importance to me and others that Oregon history must be protected and not damaged or tarnished by our waste.

I hope those in power will understand my concerns and act accordingly to preserve our local history so it remains safe for generations to come.

Thank you for your time and consideration in this matter,

Mackenzie Bussard
